Tailwind

### CAREER OBJECTIVE

As a dedicated and detail-oriented software engineer with a passion for innovation and problem-solving, my objective is to contribute my technical expertise in developing scalable and efficient software solutions. Seeking a challenging position where I can leverage my skills in full-stack development, proficiency in various programming languages, and commitment to delivering high-quality code. Eager to collaborate with a dynamic team to create cutting-edge applications and contribute to the success of innovative projects.

### WORK EXPERIENCE

#### Software Developer

Xtra@soft solution

November 2021 - current / Cameroon

- Mentored and supported 3 interns throughout the realization of their projects for the defense.
- Developed RESTful APIs that provided data to the JavaScript front-end, adapting to user inputs that can handle over 500,000 current users.
- collaborating with a group of 4 engineers to create features across the software.
- Worked on configuration management and version control for 20+ projects across 7 teams.

### PROJECTS

#### Chad Tour

April 2023 - Jun 2023

- Build a Website that presents the tourist sites of Chad and makes visitors be able to Get in touch with the team for negotiation.
- Led meetings with the customers to inform them about the evolution of the project and have their feedback.

#### Africa-Sell

January 2024 - current

- Use Laravel Sanctum to handle user registration and login, and handle user permissions for 3 different categories of users.
- Contributed to enhancing the website's search engine using Algolia for an efficient and dynamic search experience.
- Worked on the command process (adding products to the card, making a command, listing the commands to the vendors, and validating commands).

# Africa News

November 2023 - December 2023

- Integrate Laravel filament to manage the admin and writer dashboard and handle resources.
- Brainstorm with the team on the best way to implement the solution and all the functionalities needed by the different users.
- Assisted the project manager in organizing the work and sharing tasks.
